

Real Estate Industry Project

Minutes (31/08/2026 / 9:00 AM Tutorial)

Group Members: (Daniel Chanter, Tony Nguyen, Alina Noor)

Agenda:

- Topic 1: Discuss data sources, what ones we would like to use, where to find them
- Topic 2: Formalise a timeline on how we're going to progress through the subject
- Topic 3: Create a github for the group to use.

Project Task Allocation:

- Daniel Chanter: ABS data (half)
- Tony Nguyen: Public Transport data
- Alina Noor: Openroute service data
- Riley Plumridge: ABS data (half) - not here this tutorial but will be let known of his allocation

Commitments:

- Daniel Chanter: Mostly free, unavailable Tuesday Afternoons.
- Tony Nguyen: Mostly free, except tuesday and friday morning
- Alina Noor: Unavailable until Friday
- Riley Plumridge: Unavailable Wednesday and Friday, free otherwise

Decisions and Next Steps:

- Key decision 1: We have chosen to split data collection among the four of us, and we will do our own preprocessing. We will keep each other in the know about how we have processed our data in order to minimise merge conflicts.
- Next step: The next step is to work on our data collection and look into possible external datasets.

Signed: (Daniel Chanter, Tony Nguyen, Alina Noor) (31/08/2026)
